Thanks to Life.....

Thanks to life that has given me the love
To share with all things you earn
To dream and day-night miss
Miss the special friend that I loved before.

Everyone thinks I'm a kid
Because I'm talkative and acting so weird
Don't be so sure I just have that
Cause deep in me there is a warm soul.

Thanks to life-really thanks to life
Full of joy and full of love
Happiness always stays inside me
Stays longer if you keep me in your heart.
